ROADMAP

WEN LAMBO

Junkie Cats is a meme-inspired (NFT) project aiming to create a fun and engaging environment for users and. Investors. The Crazy Junkie Cats NFTs aim to generate multiple rewards for holders. We have carefully crafted and selected the finest junkie cat memes and bundled them into NFTS that users can be traded for rewards. Each NFT is equipped with its own distinctive features, adding to its extra value. The rarer the NFTS the higher the value and rewards.

The Junkie Cats world provides users the possibility to trade rare Junkie NFTS. Users can access the marketplace, shop, trade Junkie Cats NFTS and view holdings from their dashboard. The more NFT(s) Minted the higher the rewards. With specially built features, adventurous themes and limited-editions NFTs based on the current hype, the Junkie Cats team is dedicated to delivering express and continuous stream of finesse contents, NFTS and multible innovations.

Junkie Cats is built to ensure longevity with the way its buy and sell taxes are set up. Portions of each transaction is added to liquidity to ensure less price Volatility whereas the manual buyback is used to create bullish momentum or defend key support areas at certain milestones. Our marketing & development tax ensures not only a continuous stream of new investors, but necessary funding for ongoing development of the to further create More Junkies.

NFT MINTING

NFT Minting & How It Works

Minting Different Variations of Junkie Cats NFTS from the Our Own Junkie Dapp NFT marketplace couldn't be easier! Users simply connect to the marketplace using their desired wallet, visit the shop, then spend their BNB to mint NFTS. After minting head over to the staking Dapp, select the appropriate category for which you'll love to sell the nFts afterwards and that's all you need to do, wait for rewards, as going forward newer investors will want to hother than the same that the higher value. Each NFTS minted guarantees investors untold rewards which varies according to the category of NFT holding(s).

Releases

Each NFTS will have mint limit, enabling Junkie Cats to maintain a solid rewards structure without devaluing the current holder base. Each NFT variations contain common to extremely rare traits, creating an addictive user experience that's both rewarding and fun.

NFT SALES

With 100 epic, 200 legendary, 200 rare, 500 common, Junkie Cats NFTs will be available on NF Ttrade.com marketplace where all NFTS will be purchased and sold between users. Available long before launch time, this will enable investors list NFTs directly from their dashboard and sell to others in BNB. Why BNB? This is to create additional stability as a vast amount of NFT sales is injected into the chart for better sustainability of the Junkie Cats Chart.

Flexible Trading For Investors

This is much different from traditional NFT marketplaces, as users can easily sell their NFTS on the marketplace just at anytime and subsequently will be able to sell them on other NFT marketplaces as the Junkie Catsexpands.

Purchase options

Immediately after purchase, investors have the ability to view all of their NFT(S) on the dashboard, Since NFTS are limited, users also have the ability to simply

hold them for however long they'd like, selling them on the marketplace at anytime for profit. Purchasing a rarer Junkie Cats NFT(s) is more valuable as you're able to acquire more rewards as far as future released Junkie Cats NFT utility.

SECURITY:

Security and safety of funds is paramount for any financial transactions. Junkie Cats utilises a nonnegotiable zero-risk liquidity locking mechanism, backed by unique modular smart contracts. Junkie Cats is protected against traditional market Vulnerability and will continue to adapt and improve our security measures as threats evolve to ensure long-term security is always made a priority.
